Professional Summary:

Full-Stack Software Developer with 4.5+ years of experience designing and delivering scalable enterprise web and mobile applications using Angular, ASP.NET Web API, SQL Server, and Ionic. Strong expertise in RESTful APIs, authentication, performance optimization, and secure IIS deployments. Proven track record in building attendance, access control, and biometric systems.

Highlights:

- Enterprise Web Application Development
- REST API Design & Integration
- Sound knowledge of operating systems internals.
- Good analytical and problem-solving skills.

Technical Skills:

- **Programming Languages:** C#, Typescript, Java, Python, C, JavaScript
- **Frontend:** Angular, AngularJS, HTML5, CSS3, Bootstrap, PrimeNG
- **Backend:** ASP.NET Web API, RESTful APIs, Authentication, Authorization
- **Mobile:** Ionic + Angular + Capacitor, Android (Java), iOS (Swift) - Basic
- **Database:** SQL Server, MySQL, Oracle PL/SQL
- **Tools & DevOps:** Git, Azure DevOps, IIS, Visual Studio
- **Architecture & Practices:** MVC, Agile, REST, Performance Optimization

Technical Projects:

Project Name: ETAM Prime

Technology: Angular (Web), C# (API), MS-SQL (DB)

Description:

- Attendance Management of Employees
- Employee can view and manage the attendance, leaves.
- Company can view, update, and manage all employee's data.

Project Name: BOB Prime

Technology: Angular (Web), C# .NET Framework WEB API, MS-SQL(DB)

Description:

- Built scalable attendance management system supporting PAN-India deployment
- Implemented leave workflows and employee self-service modules

Project Name: SmartMuster+ 2.0

Technology: Ionic-Angular-Capacitor Cross Platform, C# .NET Framework WEB API

Description:

- Attendance and Leave Management on mobile devices
- Attendance using Face, Geo and QR

Work Experience:

Designation : Sr. Software Developer
Time Period : 4.5+ years
Company : [WYSE Biometrics Systems Private Limited](#)
Working Period : 01 June 2021 – Present

- Developed and maintained enterprise Angular applications used by 10,000+ employees across PAN India.
- Designed and implemented RESTful APIs using ASP.NET Web API and SQL Server.
- Integrated biometric, QR, RFID, and face-recognition-based attendance systems.
- Deployed and managed applications on Windows IIS with secure configurations.
- Collaborated with cross-functional teams in Agile sprints to deliver production-ready releases on schedule.

Company Projects:

Smart AMS - Angular, C# WEB API, MS-SQL
WYSE Ticketing System – Angular, C# WEB API, MS-SQL
SmartMuster+ - Java (Android).
BioSentry Fingerprint – Java (Android), C# WEB API, SQL.
Cara-Master – Java - (Android), C# WEB API, SQL.

Key Achievements:

- Successfully delivered biometric attendance solutions for government, banks and enterprise clients.
- Delivered ETAM Prime, an enterprise attendance management system used PAN India by Taj Hotels across multiple properties.
- Built cross-platform mobile apps deployed on Android and iOS.
- Handled full SDLC from requirement analysis to production deployment.

Educational Qualification:

- M.Sc. Computer Science – 93% – Pune University
- B.Sc. Computer Science – 71.08% – Pune University

The above-mentioned information is authentic to the best of my knowledge.
